TERKEL SKOU STEFFENSEN

HUG COAT RACK,
2016

HUG COAT RACK was created by the young designer Terkel Skou Steffensen, who was invited by the MILLION curators to take part in this year's collection.

Every year, MILLION reaches out to a new designer who is asked to contribute with objects that accompany the existing collection. Hug Coat Rack is a versatile coat rack that is ready to move out of the lobby and into the kitchen or bathroom to keep tea towels, hand towels and accessories organised.

The simple principle behind Hug Coat Rack is a bent rail in anodised aluminium, dyed as part of the manufacturing process for a hardwearing finish and fitted with sliding hooks for hanging. With its intuitive functionality and materiality, Hug Coat Rack fits into most contexts where flexible organisation is a challenge that calls for a discreet and reliable solution.
